Whereas the **Gollon Bait and Fish Farm** and **Hayward Bait Company** have been longtime supporters of fish health rules in Wisconsin,

Whereas **Dave Gollon** and **Terry Hogan** have been supporters of Wisconsin Aquaculture Association, members in good standing and Board members,

Whereas Wisconsin Aquaculture Association believes **Dave Gollon** and **Terry Hogan** did not maliciously or intentionally deceive and violate the Department of Agriculture Trade and Consumer Protection (DATCP) import rules, and came into compliance when the violation was discovered,

Whereas the Wisconsin Department of Natural Resources (DNR) prompted the US Fish and Wildlife Service (USFWS) to pursue the case as a federal Lacey Act violation,

Whereas the **Gollon Bait and Fish Farm** and **Hayward Bait Company** pleaded guilty in federal court to a Lacey Act Felony,

Whereas we feel that the fines and additional testing imposed by the court to be arbitrary and capricious and the testings serves no scientific purpose or protection to the fish or aquaculture industry in Wisconsin,

Therefore we declare that **Dave Gollon** and **Terry Hogan** continue as members in good standing and will fulfill their terms in office as Wisconsin Aquaculture Association Board members.
